APPLICATION METHOD

01

PRIMER INTENSIVE DISINFECTION

- ✓ Apply to a clean surface.
- ✓ **Dilution 1:1**
- ✓ Maximum dilution with water 1:4
- ✓ The solution is ready for direct use.
- ✓ Apply to the surface by spraying, ULV fogging or manually (e.g. with a cloth).
- ✓ Allow to air dry.

02

REGULAR ONGOING STABILIZATION

- ✓ Use regularly to maintain the appropriate level of surface hygiene.
- ✓ Apply to the surface by spraying, ULV fogging or manually (e.g. with a cloth).
- ✓ The solution is ready for direct use.
- ✓ Allow to air dry.

Regular use supports long-lasting hygiene and a clean usage environment.

PRODUCT PARAMETERS

Form	liquid
Colour	straw
Odour	characteristic
pH	7-7,5
Composition	colloidal silver
Application method	spraying / atomization
Storage	5–35°C, protect from frost
Shelf life	best used within 24 months from the date of manufacture

PRODUCT DOCUMENTATION AND STATUS

Biocidal product authorisation number	Nr 9976/24
Biocidal product category	PT 2, PT4
Test standard	EN 13697+A1:2019
EU Minister of Health authorisation	No. 3159-1/28.05.2021 r.
PZH Certificate	Base product, 2010–2021
Country of origin	Poland, EU

AVAILABLE PACKAGING

PRIMER

5L | 20L

REGULAR

600ml | 1L | 5L | 20L

EFFECTIVENESS

Effective and immediate action against 650 types of pathogens, including: *Escherichia coli*, *Salmonella enterica*, *Staphylococcus aureus*, *Pseudomonas aeruginosa*, *Candida albicans*, *Aspergillus brasiliensis* and spore forms.

Do not mix with other chemical products containing acids or alkalis.

SAFETY PRECAUTIONS

ULV application (fogging):

Due to the formation of very fine aerosol droplets, the use of a protective mask is recommended.

The product is not classified as hazardous.

During standard application, use basic personal protective equipment.
